

## **Larches High School**

### **Covid 19 Catch up Funding update July 2021**

In November 2020 the government announced £1 billion of funding to support children and young people to catch up lost time after school closure. This is especially important for the most vulnerable and disadvantaged backgrounds.

Larches High School has been allocated £240 per pupil, approximately £26k to be received by the end of the academic year 2020-21.

Using the guidance outlined by the EEF (Education Endowment Foundation) Larches High School has used the additional funding to support a high quality provision for all pupils and have focussed on the three identified areas – Teaching, Targeted Academic Support and Wider Strategies.

#### **Teaching**

The provision of high quality teaching and learning is essential to ensure positive pupils outcomes. All lessons are delivered by specialist teachers.

Teaching staff have worked to ensure that those pupils not attending on site provision still have access to high quality learning opportunities. Additional CPD has been provided to all staff around the use of IT / digital platforms.

#### **Targeted Academic Support**

A personalised approach to intervention at Larches ensures that academic gaps are identified and specific work is completed with pupils to ensure progress and outcomes.

As all pupils at Larches have barriers to learning, school has made some internal staffing changes so that an identified member of staff can provide 1:1 support for those pupils needing SEMH / behaviour support.

#### **Wider Strategies**

Covid 19 has served to highlight and in some cases exacerbate barriers to learning all of our cohort of pupils face in relation to digital poverty, school meals, IT skills, attendance and safeguarding. The Larches family – pupils, parents/ carers, staff and Governors have continued to work hard to ensure that these have been minimised. Relationships between all stakeholders have improved as a result of school having widened its remit from purely education during this time.
